

Attachment B. Recruitment Flyer

Readability of Online Patient Education Materials for Pre-Procedure Cardiac CT, With an Artificial Intelligence Rewrite Arm and Lay Reader Assessment

Principal Investigator: Muhammad Naeem, MBBS, MD

Text for a posted flyer, volunteer list entry, or online notice. No individual will be approached directly by a study team member who holds authority over them.

Can you help us make heart scan information easier to read?

We are looking for three adult volunteers to read short passages about heart scans and tell us how clear they are.

You may be able to help if you:

- Are 18 or older
- Can read English
- Do not work in health care and have no medical or nursing training

What is involved:

- An anonymous online survey, done at home, at your own pace
- About 45 to 60 minutes total
- No name or contact details are collected
- No medical exam, no scan, no procedure, no personal health questions

You do not need to know anything about medicine. That is the point. We want to know whether ordinary readers can understand these materials.

To take part, contact naeem.muhammad@mayo.edu
