

Attachment E. Chatbot Prompt and Platform Log

Readability of Online Patient Education Materials for Pre-Procedure Cardiac CT, With an Artificial Intelligence

Rewrite Arm and Lay Reader Assessment

Principal Investigator: Muhammad Naeem, MBBS, MD

Fixed prompt, applied identically to every passage and every platform:

Rewrite the following patient education text at a sixth-grade reading level. Keep all medical facts accurate. Do not add new medical claims. Do not remove important safety or preparation information. Use plain words and short sentences.

Rules for running the prompt:

- Start a new, empty conversation for every passage so that earlier passages cannot influence later output.
- Do not follow up, do not re-prompt, and do not ask for a second attempt. The first output is the output that is scored.
- Do not edit the output in any way before scoring.
- Enter only publicly available web text. Never enter patient data or any identifiable information.

Platform log, completed for every run:

Field	Example entry
Passage ID	CCTA-07
Platform	Platform 1 / 2 / 3
Model name and version	As displayed by the platform
Date and time of generation	Recorded for every run
Account type	Free or paid tier
Output word count	Recorded automatically
